

Introduction to Budd-Falon Law Practice taken from their website:

Federal and State lands issues are the backbone of Budd-Falen Law Offices. For over 20 years we have been providing legal services to ranchers, farmers, and rural landowners concerned with their interaction with federal and state lands.

Our experience covers all aspects of the federal/private land intersection: federal and state term grazing permit applications, rangeland regulation reform, term grazing permit surcharge fees, grazing categorical exclusions. As well, we provide our clients with exceptional knowledge of the federal administrative appeal process, especially before the Bureau of Land Management and the United States Forest Service concerning term grazing permits.

In addition, we help landowners maneuver through the federal rights-of-way statutes which provide private landowners access to their properties across federal lands.
